

OKUMA LB3000 MULTI-AXIS LATHE

Accurate
MANUFACTURING®

OKUMA LB3000

The largest horizontal lathe in the Affordable Excellence collection of machines, the LB 3000 is built on Okuma's Thermo-Friendly Concept to ensure minimal thermal growth, and slanted box bed construction translates to unsurpassed quality and rigidity. Equipped with Okuma's high power, high torque PREX motor, this machine delivers high quality machining from heavy to high speed cutting. The operator-friendly, open architecture THINC®-OSP control makes this machine not only easy to operate, but also to integrate with other peripheral equipment. A wide variety of bed lengths, bore sizes and options, including live tooling, sub-spindle and Y-axis, means there is a configuration to meet any shop's requirements.
